EXHIBIT 7

Figure Narrative

This figure depicts the type and extent of different liner systems implemented during the development of the Southbridge Recycling & Disposal Park.

Notes

1. Liner construction details for Phases 1 through 7.2 are based on a plan entitled "Figure 9 Landfill Development Sequence" by Tighe&Bond, dated November 2012. Original scale 1"=200'.

2. Construction details for Phases 7.3 and 7.4 are based on "Southbridge Sanitary Landfill, Southbridge, Massachusetts, Landfill Phase Approval - BWP SW 08, Phase 7.3/7.4, Volume I" by Geosyntec, dated June 2012.

3. Refer to previous figures for additional notes and legend.

Legend

Compacted subgrade consisting of on-site till material and no leachate collection system

Compacted subgrade with leachate collection system

Composite liner and leachate collection system

Double composite liner with leachate collection system

Permitted double composite liner with leachate collection system

NOTES:

1. THE BASE MAP WAS DEVELOPED FROM EXISTING TOPOGRAPHY PREPARED USING AERIAL PHOTOGRAMMETRIC TECHNIQUES ON PHOTOGRAPHY DATED JULY 22, 2015 FOR SOUTHBRIDGE RECYCLING & DISPOSAL PARK, INC. (SRDP) BY WSP SELLS (WSP) OF NASHUA, NEW HAMPSHIRE AND PROVIDED TO SANBORN, HEAD & ASSOCIATES, INC. (SANBORN HEAD) IN DIGITAL FORMAT AT AN ORIGINAL SCALE OF 1" = 40'. IN ADDITION, DIGITAL ELEVATION MODEL (DEM) DATA OBTAINED ON FEBRUARY 15, 2016 FROM MASS.GOV IN A DIGITAL FORMAT WAS USED TO DEVELOP GROUND SURFACE ELEVATION CONTOURS IN THE AREAS SURROUNDING THE SITE.

LEGEND:

	PROPERTY LINE
	TOWN LINE
	10-FOOT TOPOGRAPHIC CONTOUR
	EXISTING WETLAND LIMIT AND DESIGNATION
	PERMITTED LIMIT OF WASTE
D——D'	CROSS SECTION ALIGNMENT
	GROUNDWATER MONITORING WELL
	SURFACE WATER SAMPLING/STAFF GAGE
